

# Leadership programme

Partners:

**DIF**  
Nacional

Enseña por México

We have partnered with Teach for Mexico to help improve the quality of play experiences in ECD centres supported by DIF. This 3-year partnership aims to strengthen the current capacity in these centres while at the same time develop a generation of 150 change makers that will champion play and the importance of whole child development.

## Strategy

- 1** **RECRUITMENT:** In the first year, we recruited 52 young fellows, recent graduates from public and private universities. They have received a 6-week onboarding and ongoing coaching from Teach for Mexico and The LEGO Foundation.
- 2** **PLACEMENT:** The fellows will support up to 4 ECD centres for a period of 2 years. They will bring best practices and help build capacity of practitioners.
- 3** **LEADERSHIP:** The selected fellows are part of a leadership programme while also helping Centre owners develop their leadership skills.
- 4** **COMMUNITY:** Fellows will work with the broader community to promote the importance of play.

## Impact

### BY END 2018

52  
fellows

104  
centres

416  
practitioners

3,328  
children
